Dear Chair Aderholt and Ranking Member DeLauro:

I am requesting funding for the East Grand Health Center Expansion in Fiscal Year 2027. The entity to receive funding for this project is the East Grand Health Center, located at 201 Houlton Road, Danforth, Maine, 04424. The funding would be used for a 3,252 square foot addition, providing increased capacity for patient rooms, physician offices, and expanded community services. With this planned expansion, the number of exam rooms will increase from five to twelve, and office space will double from six to twelve. Additionally, the new facility will support the introduction of additional services such as pharmacy, dental, and vision care, and connect to the Danforth Wastewater Treatment Facility, replacing the outdated 44-year-old septic system. The project will also make it possible for the health center to be designated as a community warming center with the installation of an upgraded on-demand generator system.. This project is an appropriate use of taxpayer funding because the health center will be able to continue providing expert, cost-effective primary care services to all and ensure future generational needs are met.

This project has a federal nexus because the funding provided is for purposes authorized by the Public Health Service Act.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Jared F. Golden
Member of Congress
